

Company Tutoring Partnerships

Great companies know that happy and healthy staff leads to happy and healthy work culture and bottom line. Parent employees perform better and more consistently when they know their children are getting the best education available.

Employers benefit from:

- **High-Quality Services:** Our tutors are certified, vetted, and come highly recommended by school administrators and personnel. Your employees want to know their children are in good hands and making significant academic gains above their peers. That's our specialty.
- **Easy Onboarding:** When you partner with MTT, we handle everything. You just provide us with the employees who want the service and we'll take it from there, providing you with progress monitoring and reporting every step of the way, so you can see and experience the value firsthand.
- **Employee Retention:** Employers don't need to worry about losing a stellar employee because they can't keep up with the demand of working and caring for their children's academic needs.
- **Convenience and Access:** MTT's teacher-tutors are happy to meet your employee's children wherever makes the most sense! We've had teachers come into the office, we've had teachers go to employees' homes, and we've had teachers work with students virtually.
- **Peace of Mind:** Employees whose kids are benefitting from academic support are less frustrated, less stressed, and more productive.
